

# Northwind Analytics — Employee Handbook

## Section 1: Company Overview

Northwind Analytics is a data consulting firm founded in 2016, headquartered in Austin, Texas, with a distributed team across North America and Europe. We help mid-market companies build data platforms and analytics practices.

## Section 2: Working Hours

Core working hours are 10:00 AM to 4:00 PM in the employee's local time zone. Employees are expected to work 40 hours per week, arranged flexibly around the core hours.

## **Section 3: Remote Work Policy**

The company allows eligible employees to work remotely up to three days per week. Employees who wish to work remotely five days per week must submit a request to their manager and to HR for approval, renewed annually. Fully remote roles are explicitly marked as such in the job posting.

Employees working remotely are expected to maintain the same core working hours and to attend all scheduled meetings with video enabled unless otherwise agreed with their manager.

## **Section 4: Paid Time Off**

Full-time employees accrue 20 days of paid time off (PTO) per calendar year, accrued monthly. Unused PTO of up to 5 days may be carried over into the following year. PTO requests should be submitted at least 5 business days in advance through the HR portal, except in emergencies.

### **Section 5: Sick Leave**

Employees receive 10 paid sick days per year, separate from PTO. A doctor's note is required for sick leave lasting more than 3 consecutive days.

## **Section 6: Code of Conduct**

All employees are expected to treat colleagues, clients, and partners with respect. Harassment, discrimination, and retaliation of any kind are strictly prohibited and will result in disciplinary action up to and including termination.

### **Section 7: Expense Reimbursement**

Business expenses over \$25 require a receipt. Reimbursement requests must be submitted within 30 days of the expense through the finance portal and are typically processed within 10 business days.
