

Northwind Analytics — Q2 2026 Sales Report

Executive Summary

Q2 2026 revenue reached \$4.82 million, an increase of 14 percent compared to Q1 2026 (\$4.23 million). Growth was driven primarily by the Financial Services and Healthcare verticals.

Revenue by Region

North America: \$2.9 million

Europe: \$1.4 million

Rest of World: \$0.52 million

Revenue by Vertical

Financial Services: \$1.8 million (up 22% quarter over quarter)

Healthcare: \$1.3 million (up 19% quarter over quarter)

Retail: \$0.95 million (up 4% quarter over quarter)

Manufacturing: \$0.77 million (down 3% quarter over quarter)

Sales Pipeline

The sales pipeline entering Q3 2026 stands at \$9.1 million in qualified opportunities, with an average deal size of \$185,000.

Q3 2026 Outlook

Leadership expects Q3 2026 revenue to grow between 8 and 12 percent quarter over quarter, driven by continued momentum in Financial Services and the launch of the new Northwind Insights product line in September 2026.

Risks include lengthening sales cycles in the Manufacturing vertical and increased competition in the Healthcare analytics space.
